SUMMARY

I am a recent university graduate looking for positions in Marketing and Communications. I am focused and determined with excellent organisational skills, which have been beneficial in scheduling tasks appropriately, and effectively meeting deadlines. I am great at researching, as evident not only through a number of articles I have written related to my modules, but also by looking at and implementing the latest trends into my work. I would like to further my understanding of marketing within a business environment and learn about marketing strategies across a range of industries. I can work independently as well as working well under pressure which can be proven through my role within hospitality which has also taught me to adapt quickly when needed which helps me work well in teams.

WORK EXPERIENCE

Keyholder - Crosstown - Aldgate

November 2022 - Present

- I have used high levels of independence and common sense in order to manage stock counts, restock stock rooms, transfer products to other distribution channels, order equipment, act on health and safety procedures, setting up pre-orders for events, train new staff and handle different forms of payment, as I work these shifts on my own.

Freelance Web Development and Design

November 2022 - Present

- Creating a website for a tour guide in Ecuador that caters to a German, English and North American audience.
- Developed by working closely with the client to ensure their requirements and needs of the website have been met, such as the ability to show the page in three languages. Throughout the process, I used strong attention to detail when designing, copywriting and user testing to ensure that the website would give my clients the best results for their business.

Bartender Associate - Hamilton hall - Liverpool St Station, London

December 2019 - 2022

- Undertaking the breakfast rush, I often handled both bar and floor work alone in my section, which was at times difficult due to the fast-paced and business nature of the role. I maintained the bar presentable as well as helped floor staff to keep the seating areas clean.
 - My work at Hamilton hall has financed my expenses throughout the university, which has allowed me to focus on my studies. My work here has taught me the value of being able to manage work when I am overwhelmed with tasks.
